

HSA A UNIQUE IMPRINT SYSTEMS

A Unique Imprint

HSA Systems is a leading manufacturer of industrial inkjet equipment. Our core business is developing and manufacturing high-resolution inkjet printers, as well as a range of other products for coding, marking and commercial printing applications.

We were founded in Denmark in 1993. Since then our product portfolio has grown so that we have products for the simplest date coding to the most complex variable data printing applications and everything in between.

We understand that cost is critical to sales success. Our goal is to provide economical high resolution inkjet printing systems. This combined with our wide range of products make us an ideal partner and has enabled us to sell our products in most parts of the world.

We encourage you to visit our website hsasystems.com where you can see our complete product line as well as specific application successes.

"... cost effective,
high resolution inkjet
printing systems
have enabled us to
sell our products in
most parts of the
world."

Coding & Marking

HSA Systems delivers solutions to a wide range of applications within

- PRIMARY PACKAGING
- SECONDARY PACKAGING
- TERTIARY PACKAGING

or printing directly on to

- INDUSTRIAL PARTS,
SUCH AS CABLES, GYPSUM BOARDS AND WOOD

For a requirement to output small or large print, a simple print job or complex end-to-end process, HSA Systems has the solution.

HSA Systems provides flexible inkjet solutions for printing of

- PRODUCT IDENTIFICATION
- EXPIRY CODES
- GRAPHICS
- DATE & TIME
- BATCH NUMBERS
- 1D & 2D CODES

"... complete solutions with full print and camera control for the pharmaceutical and other industries requiring high standards of control."

Commercial Printing

HSA Systems delivers solutions that cover most needs for professional addressing and postal applications, as well as the security printing industry.

We deliver integration kits as well as end to end solutions, including vacuum mailing tables, desktop printer conveyors, feeders and many accessories.

Expand your possibilities with HSAJET

- ADDRESSING AND PERSONALIZATION
- LOTTERY PRINTING ON SHEET OR WEB
- DOCUMENT NUMBERING ON SHEET OR WEB
- UNIQUE CODE PRINTING ON E.G. PHONE CARDS
- SECURITY PRINTING IN THE FINANCIAL INDUSTRY
- CANCELLATION OF MAIL
- PRINTING OF POST INDICIA
- CMYK PRINTING OF E.G. COMPANY LOGO

HSAJET®

HSA SYSTEMS
A UNIQUE IMPRINT

HSA Systems Product Keywords

In the portfolio of HSAJET® products, you will find a range of controllers, each of which is suitable for simple as well as complex coding, marking and commercial printing jobs. If there is a need for simple product identification or a complete system with vision control, the right solution can be found in our range of products.

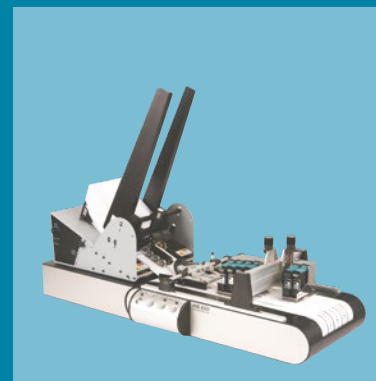

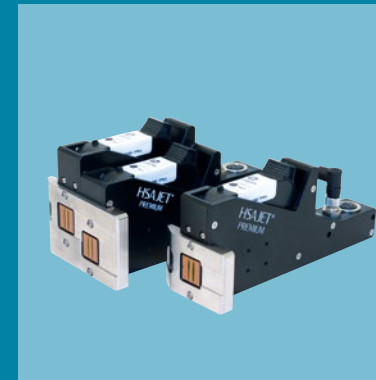

Software

HSA Systems' in-house developed software and printers support 2D data matrix complying to the pharma industry's GS1 standard.

Our software handles a very wide range of database formats for example SQL, Access, XLS, CSV and is available for different kinds of productions or industries.

Inks

Using the right ink for the printer and specific print jobs is very important. HSA Systems is master distributor of inks from HP Inc. and HP Inc. approved partners Kao Collins and General. In addition, we offer our own range of HSAJET® original HP inks.

Technology

Today, we are HP Inc.'s largest independent industrial printing technology partner in Europe. In addition to HP thermal inkjet, we offer a wide range of Xaar-based printheads and an extensive range of accessories for the coding, marking and commercial printing industries.

Service & Support

Service and support is provided through technicians and support staff who have all been specially trained on the HSA Systems equipment. HSA Systems appreciate the demand for fast back-up; this is why the factory is available for extended support.

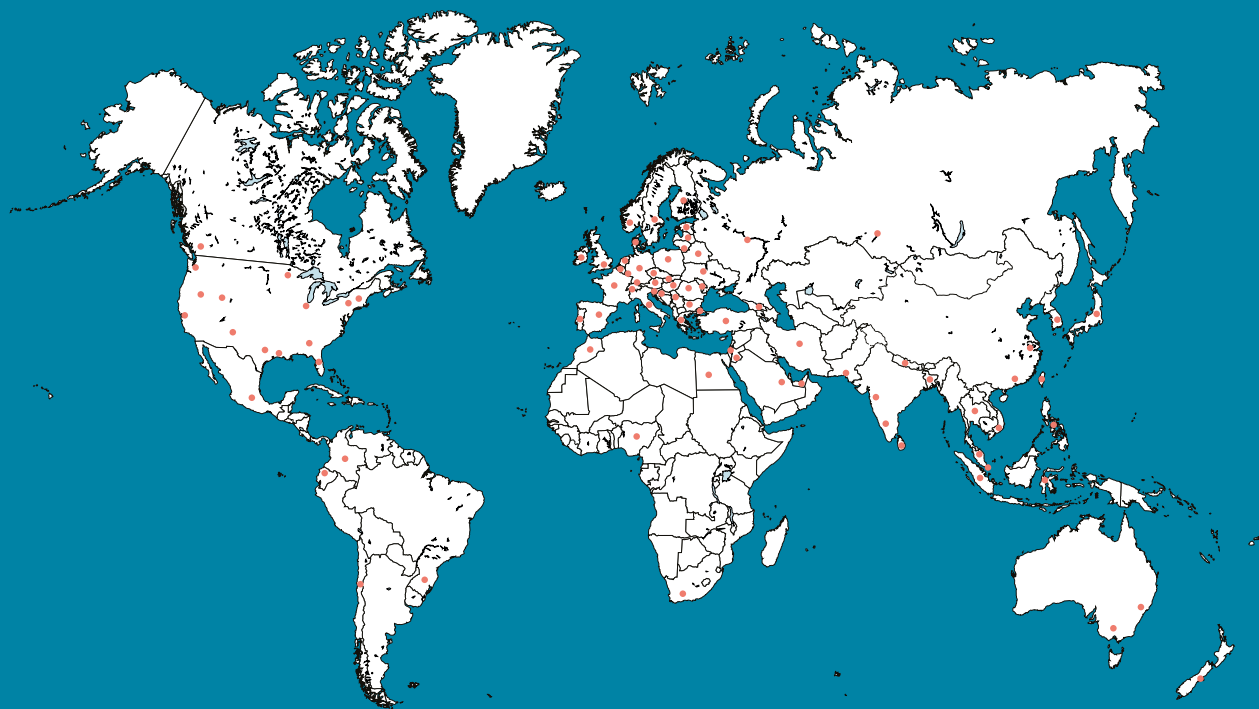

HSAJET®

Global Network

Our equipment is available through a global network of distributors and integrators. Thanks to these partners, HSA Systems is supplying stand-alone systems and integration kits to companies around the globe.

"...with our broad selection of inks you can print on almost any substrate using HSAJET® printers."
